TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Bottles, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and are filling into full sized jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify the truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with the boiled in most brands of English Pickles found in this country.

650,000 Acres Selected Pine and Farming Land

IN MICHIGAN.

THE SAINT MARY'S FALLS

SHIP CANAL COMPANY

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan, on and in the vicinity of the large streams and rivers, easy of access, and located under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large, and capable of floating logs at all seasons of the year, with harbors at their mouths, on the Lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, proving already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great Lumber Markets of the country.

Tracts of from 40 to 40,000 acres

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West,

and as they contain enough of the FINE PINE TIMBER to more than pay for the land, fencing, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, fruits, and produce raised in the most favored portions of the West.

Companies of 10, 15 or 20 Persons,

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual exploration by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company in Detroit, Michigan.

Copies of Maps, field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

☞ Large Maps of the State, showing the lands of the Company, will be found at public places in most of the principal towns in the Eastern and North-western States. GEO. S. FRUST,

ADDRESS

Of the Carrier Boys of the Whig and Courier, Good and Fourteen. Thus the mournful wail—
The solemn requiem of the dead old Year,
To Fancy's ear sounds loud through the dark vale:
"As mildly saw him stretched upon his bier,
Icy clouds and tempests fill, or lark is no more
Its errand done, its mission all fulfilled,
And all its scenes of joy and sorrow o'er,
Down the dark vista of the past sped.
Like storm-swept clouds its seasons passed away.
Yet mid its days, hours and months, as they sped,
Left each its record, that must stand, for aye.
Spirits peopled his fragrant breath upon the air,
All redolent of Flowers—with busy fingers wrought
Her emerald robes to clothe in beauty fair
The valley, Upland, meadow and the grove,
And genial Summer with her magic powers
With genius touch, to luscious fruits transformed
The embryo harvest of the buds and flowers,
And Spring's fair promise faithfully performed.
Then Autumn came and reaped the golden fields,
And from the orchards shook the mellow load,
And at the harvest, bounteous Nature yields,
Into all ready Winter's garners poured.
Round early's hearty hearth-stone Plenty smiled,
While through the roof-tree bowls the boreal fire
That to the hill-sides and the mountain tops
Has driven the drifting snow, and forced up the vale.

Time passed the year away. But let us trace,
With rapid glance the history of the days—
The years of War and Politics—the rise
Of rival ambition, reckless, fierce and vain.
Before we start upon our broad survey
Let's change our measure, to increase our speed,
And take one that will bear us on our way
Like West trotter of the Morgan breed.

War in Europe—will its ends be
And we not rehearse its horrors
Russ and Frenchman, Turk and Saxon,
Closed with "Red Bellona's bauquet,"
Pause awhile, for food digestion
Ever waits on ship's surfeit—
As the fatal Crimean death feast
And turn away all gladly
From its bloody scenes of carnage
To our ele-Atlantic matters.
Here on Uncle Sam's plantations
We have had our battles—fierce—
We've had a glorious campaign
Many rallied millions met and struggled
In a mighty moral contest.
From the bowers of Northern Freedom—
From New England's rugged hills—
From the vales where rolls the Hudson—
From the West and from the North West—
From the fields and from the work-shops
Came forth Freedom's host to battle,
And from midst their sacred bond men—
From their dearly-cursed plantations
Came the ardent, dusky Southron,
And they met in mighty conflict,
Wherefore? For back in the ages
Had that warfare its beginning.
'Twas the same old war of Freedom—
Truth in arms 'gainst hoary Error,
Where the champions, Right and Justice—
With the giant Wrong contended—
Where to break his cruel fetters—
From the clutch of selfish Power,
Bruce to battle his feeble victims—
Through the hosts of Truth and Freedom
Went on, in the strife, the battle—
Yet the foe can boast no triumph,
For in blood and carnage columns
On that field were clock'd and baffled
And, Oh Truth! thy glorious banner,
Borne by true hands farther forward,
Proudly waves, in stern defiance—
And the stout hearts rallying round it,
Though defeated, still victorious.
Ayel we have fought and have not failed—
At length the wish'd North once more
With hearts of joy and hope is hailed
Its ear of promise. It still soars
Still upward for a braver flight—
To glad'er, stronger, purer and more pride
The boats that battle for the Right—
That brake the waves of Slavery's tide.
Let us here with careful retrospection
Trace out the events that marked the fleeting year—
The episodes that depicted the late election—
The bitter word and cold contemptuous sneer
Which dropped from pen, and tongue and sneer
Neath brilliant flows, a matter little Right—
While murder stalked o'er Kansas, sworn to quell
Her Freemen's spirit, and in blood inwrite
Dark Slavery's triumph. And there is no need
That we recite and comment on each deed
That sailed down on their actors' cries of—Shame
That doomed its liefest to murderer's fate—
That form Brooks the name of Lasered wrote,
And in spite to his, from Keitt and Edmondson
As a proud trio, doubtless born to show
What Carolina's chivalry can do.
They can be bold and brave and dared it fun
When in the pulpit they stand three to one—
But when the bully scents the far-off danger
He turns away and still remains a stranger
At Cotton House. His name's not in its books—
Brave, braggart, feutal, blatant, Bully Brooks!
How doth erection of thy name
Illing up deeds of blood and shame,
Suffering Kansas! But not here
Can those tales of crime appear.
Would—at the living's could tell—
Their last home the conflict well.
But then comes a brighter day,
And sending all past away
The rule of Him, of all thy foes
The worst—the author of thy woes—
The master-villain, who, with power
To shield thee in thy darkest hour,
Yet gives thee, bound, to Keitt and sword,
The victim of a ruffian horde.
But already from afar
Bright'ning o'er the clouds of war
Dawn Freedom's glorious star!
But Friends and Patrons it is time
To close this rude and rambling rhyme!
Yet ere we part, a word or two
I would address direct to you.
The poor, the sick, the friendless—all
Of whom the cold north wind doth call—
Remember them, nor coldly turn
From Suffering's voice—from those who mourn.
How kindly Nature's hand hath pour'd
Her bounties forth to bless our board!
How has our favor'd land been spared
From judgments which in others have shared,
No pestilence to shock Death rides apace
Among our homes—no famine's dread,
Nor the inevitable plagues that breed
With fatal mission mark'd the years,
While has our path been kindly strewn
With blessings from the year just flown,
For which our grateful thanks be now
To the Great Source from which they flow.
Yet there's the Widow bereft—her stay is dead!
And may she not, when cold the hearth,
Through all the winter, with the bitter wind
To cook and all, bring plenty, joy and peace,

VIENNA TO LINTZ—THE DANUBE—CASTLE RUINS—WINE & INNING—LINTZ AND ITS PEOPLE—BEAUTIES—TO PASSAU.

It was Thursday morning. As we expected de sy had to gathered my y - ady Vienna to let days dime eclipse us had shu dered th r im dime s, three days before and set out for Li z where we were ought to meet. The re was however, no lack of American coppa wat Vi na and I even fill in with c age trier s. One acquaintance just from Co ina t ople said the last was full of A ericans f om he were not less than ty on the s mmer by which he came to Lr ste.

As for the movi g the seeing and the de ng portion sity of the A glo Sax n tribe, it needs no further comment here than the st it gives to the world. In the first class hotels through out he en ire of Europe in the part of the French the Ge ma ies the English language is the first requisites for a gent s is that h speak E gl h. And in all those countries a fine qua ron, to such a degree as almost to threaten the native tongue—I never was in a port in my life, through all the world's sea, an old Germ n a lot to me where I could t go on h English language, England and America a part of lover he globe and I h ve it will ond day be the language o the world.

I don ed e more the Lucan house and hurried away.

It was already nearly seven o clock when I rocked d Nussd rf where I hoped may be trans lated into Nu ve lage—lying e the east Danube under he hills a ch look down from the distance on Vienna. Alas, for my co ception of ghost ance s that peop le the scene of the

Dark rolling D nube—it found a miserable little rocki g village with decks crowded. Those oman pre ent person s, Austrian Po lice officers stood at the head of the plank—Every man s te well to documents were closely ex mined and he who had no official permission to go on was left. How it suffers the equanimity of a Republican to see the way in which all things Lic d tread under foot. Being Natural in the Old World it became t o far pushed leapon, of re ur in le ngnes found out or ought there the simple ex om ebatty by h ma s a man and no man as

The ascent of the Danube must be only a gene alone for the trial s would be qu te too tedious in ous. From Vienna to Linz by the ri er s about or hundred and twenty five g lish miles. Seven or eight hours make that sta ce at about twenty hours of ru ning time.

You pass under ruins that are classical in Ad dale Age History. In the dunkcomb of the ri er enough ac pointed and dese ate brag ks do the Lo on Heart, and swa , in every mo t s, Otto the I ght reached to Jeru alem, we cross lege de, and pleasa e spot at ti ht appear the s that sadly tal r ming ho de ol abodes.

N w the sunsets on the r blackness and pro ject scene, barre ir ck and ragged ruins fade away and smooth green hills come forth, that poll t sole voluptuous verdure e tly cover to the marg n of the flood. Overlooking these hills stands a P lgrimage church of he Virgin, a rude painting remains though ing up how the Cross be ring Savior ascended the mou t n a Crucifixion. And here decrees of l mands gather in lots pilgrim troops who the harvest is come to the ki s Virgin protect at her own shrine, and before her own m ra ulous working image.

Even the river on and the shadow of pe western ta k ra ed on the eastern. A din ig ow a th darker the t ltest amer law of it foo of he replan. H r fore decks were cleared and two hi tre on non sent their great voices up the s k dulle echoing from side to side t he lo k tender we were coming, for only one boa may pass at the ne time.

A tra o clea in the middle of the current, the archer was cau , or the l tle boa waited for the wawn

Early in the day I made the acquaintance of a young Hungarian. We sat for hours together by the rail g, and talked of our fatherlands. Ah! s, said he, s indeed happy long to see it—but that happiness lies wholly in the con ti s governmen I cannot believe it a more beautiful land than ours." And as the sun went down he said — It is still high day in your land but the shadows of mi t were here. It is only emblematical of the cond t on o man in the two countries. He leaned over ward the water and s ghed in a low voice. "Ah that there were no tyranny in the world." Then turning to me again, he continued, And if you had no Slavery in Amer ca, how perfect and bode for man it would be!"

All the day long the chief employment of the German passengers was to drink the very fabulously sour Danube wine. Scores of bottles stood on the tables. Four cents paid for the filling of one, and the juggler turned it up in the most approved style till it was exhausted. And so, too, there was the ridiculous sight of men walking about or standing in clusters on deck, each with a bottle in his hand. And when they locked up at some old ruin, they soon forgot wherefore their faces were elevated, but improved the opportunity to pour down more wine, so that their bo ties seemed at times to by used like opera glasses.

At nine the next day, we landed at Linz and I met my comrades again. Day had a story to tell of his day's stay among the monks of Molk and Irving was enraptured with the most (elder) of Ama elder, and the landlady's pretty daughter—whose worthy mother would not be give him to be an American, because he was not black.

We looked for the beautiful women of Linz but I must say none f them showed themselv s in the streets on that day. There were however, some e egant fish to be seen i the fish market, swimming about in troughs of pure water and customers were served with the fresh article.

The fortifications of Linz are very peculiar for Europe. They consist of thirty two single fortresses placed at long distances from be e y, and completely encircle it. They con ect with e ch other by u derground passages, and flyb s and toge ther a mine circle, or the mil oppose to the ene y, forming the c tadel.

We left Linz o the following morning and passed through the beautiful valleys so famed for the religious civil wa early in the seventeenth century and the exp eriences be tween th t mysterious personage known as the Student, and the l per al Generalissimo Papp the m. Many Protes ants still res n in this vicinity, but as not or so many trials that whole communities have been known o learn home together.

Across the deep hills T aun Sco, some nine or ten miles we passed in a litt ost amer with an Eng ish captain. It is almost the only one through the mountain re to that most romantic but locked up litt country called Ischammergut,—for the Salt chamber pos sessi n—so called from a vast mountain salt chambers.

We walked all the afternoon, and at even ng entered the m st romantic town of Ischl imbedded between all blue mountain sides—for it is a very fashionable watering place—the Emperor of Austria has here a summer place where he spends many weeks in the season. Here also it was that he was betrothed to the Empress a Bavarian Princess!

The Trial of Mr Tuckerman, former Treasurer of the Eastern Railroad Corporation (for embezzlement, which has been going on for the past week before the Municipal Court at Boston, closed on Saturday, when the case was given to the jury. Hon Rufus Choate and John A Bolles Esq conducted the defence; G W Cooley for government. After six hours deliberation, the jury returned a verdict of *guilty,* as will be seen by a telegraphic despatch.

The following is part of the testimony of Samuel Hooper Esq. given on Wednesday. It shows how Tuckerman obtained the funds and what he did with them.

Statements were made to me by Mr Tuckerman in Mr Reed's office representing that he had used funds of the Eastern Railroad Improperly by loaning them. On being questioned as to the extent of the embezzlement, he said at $100 000 and then that it might be $150 000. The object Tuckerman said the amount would not reach more than the latter figures. I asked him where the money had gone, and he said he had paid as much as $60 000 for an interest in a leather tanning establishment belonging to a Mr Kinsman, I think, in New York. Being the same as that of the Superintendent of the road. I inquired of him and found it was a gentleman in New York to whom he had also, he said, lent a large sum on a patent for making shoes—some $25 000—and in course of a year he would realize large profits from this any shoemaker, for the loans. Tuckerman represented himself to have an interest in both patents, and he said he had lent money to Dr Morton to assist him in getting some remuneration from government, or securing a patent in Washington, for the discovery and manufacture of ether. I questioned him as to the extent of this loan, when he said it was $20 000, and he was surprised at what it amounted to, but Dr Morton was about to receive $100 000 from government, $50 000 of which would come to him. He was asked if he had lost on money in stock speculations, and he said I had, at times; but he had a transaction with Geo W Pratt but not recently, also with Mr Paine. That was generally what he stated to me of the subject. I next asked him concerning the mode of conducting these things in his accounts. He explained that his notes payable in account, were not generally correct, also that sundry account (techn cally) did not correctly represent the facts. The Asiatic and Merchants Books accounts were also misstated in the same way and shares of railroad stock I am been over issued. He stated with respect to the last matter, that the last one he mentioned two years the last over issue was seventy shares which I bought of Messrs Read and Higginson, the first one was 10 years ago, made to a Savings bank in Roxbury.

Manslaughter—On the morning train of cars from Bangor to Watervalle on Saturday last between Carmel and Newport, by the Rev J H Allen, Mr Wm C Putnam of Hampden, Conductor on the train, was Frank A Fuller of Carmel. Merry has gone and repent at leisure; is an old adage and if getting married at a speed of forty miles an hour is not marrying in haste we can easily imagine what would be, but in this case the latter clause will most certainly fail. Although the bridegroom was *steaming it hard* and on a *regular train,* when married, we congratulate Miss P upon her prospect of gliding happily along, and enjoying life at railroad speed—and Putnam is so thoroughly a railroad man that she will be certain to reach the various stations of life on time.

The Argus says—

They were all smart looking young men and were well qualified by ability to make their mark in society as good and useful citizens. They chose a different course and find their homes—in the State Prison. The course has been brief—to close containing a lesson, which it would be well for young men to consider.

Destruction of Foxcroft Tannery by Fire.—This morning about 5 o clock, fire was discovered in the Foxcroft Tannery, which was soon entirely enveloped in flames. The tannery was owned and occupied by Levi O Farnham.—*Dover Observer.*

The report that the Supreme Court of North Carolina had decided against the competency of Universalists to testify under oath is contradicted. The question has been raised, but it is not decided. Such a decision as was reported would be worthy of the dark ages.

News by the Fulton.—The following particulars are given of the accident to the steamship Hermann.

The Hermann encountered the most terrific weather in the Atlantic, the wind blowing a perfect hurricane for the most part of the time, and the seas running mountain high. When about 900 or 1000 miles from Southampton the vessel labored heavily and but just able to make headway against the gale the centre shaft broke carrying away the side levers of one of the engines, and the shock damaged the piston of the port engine entirely disabling it. The ship was thus made entirely dependant upon the power of the remaining engine.

The wreck of the broken machinery was quickly dispersed and the head of the ship put about for Southampton, steaming with one engine driving both paddle wheels.

Dreadful Typhoon—Loss of a Thousand Lives.—The North China Herald of September 10, which came to hand by last steamer, contains the following account of a terrible typhoon and its appalling consequences.

The capt in of a large junk from Bangkok has communicated the following note on the disasters occasioned by a typhoon he encountered on the 14th of August on approaching the Chusar Islands from the west. We formed one of a fleet of twenty two junks bound to war one ports from Shanghae. On the 12th of the moon the wind blew furiously from the North West and suddenly chopped round from the South. Seventeen vessels soon foundered and the remaining five were dismasted. We lost also both of our double anchors. About one thousand men perished in that storm. In consequence of this disaster I was afforded by a steamer we were towed from drowning and starving.

Inscription on Extravagant City Government.—It has been a matter of surprise to us (says the State of Maine) that the intervention of the S J Court has not been often invoked to check unauthorized expenditures of town and city governments. By the following paragraph from the Lawrence Courier, it appears that the remedy has been tried with good effect in Lawrence.

Supper of the City Government. On the 9th inst. the Government of this city appropriated two hundred dollars to defray the expense of a supper to be provided for them as a body and such of their friends as they might deem proper to invite to the feast. The great event was not allowed to come off the evening appointed on account of the inclemency of the weather, but was postponed to the next evening when made for the supper and invitations extended to numerous citizens. On Saturday at session an injunction from the Supreme Court was served upon the City Treasurer, forbidding him to pay the appropriation.

A Paris correspondent of the New York News says that a gallant robbery was recently committed on one of the Lyons railroads. The following is a synopsis of the incidents of the thing. A strange one s into a familiar conversation takes a dram from the cup of his drinking flask, begs a piece of tobacco or offers you a horn first and turns out another, the cup has a secret compartment, filled with drugged liquor, and drinks and go to sleep they gue take your money and goes off at the next station.

Curious Treasure Trove. One of the girls employed in the paper mill of Messrs Merrill & Kimball the other day, picked from the rags a set of teeth on gold fastenings, and sent a memorandum for the gold alone. We presume the proprietor of the mouth cannot well call for them.—*Belfast Journal.*

A poor woman named Sullivan, in Lowell, whose husband was temporarily absent recently applied to a city constable for wood to keep her from freezing. A lady recently missed her poodle dog and complained to a officer an to find the little dear, which he did. She was profuse with her thanks and asked the officer where he had found him. A Tantalizing Fall.—The Rochester Union, giving an account of a boy named Geo Shale falling over the Great Genesee Falls in Rochester, says:

It appears that the boys went down the ledge towards the mill, perhaps to see how far they might venture, one of them named George Shale, ventured too far, slipped upon the rock, and in an instant went over the great precipice, falling over one hundred feet, to the verge of the water boiling up from the eddy under the Great Fall. All who heard the alarm concluded at once that the boy was dead, but he was so far from being dead that his cries attracted the attention of boaters on the river, and forty rods distant and they went to his relief. He was found standing partly upright among the rocks, about six feet from the edge of the water. One of his legs was badly shattered, and some of his ribs were broken. The precise extent of his injuries could not at once be ascertained. He fell feet foremost and was terribly jarred, though striking in the soft snow may have in some measure lessened the shock.

Fatal Accident. The wife of Mr. Lewis Brigham of Templeton, met with a sudden death on Tuesday morning, in the following manner: She was standing up in a chair for the purpose of hanging up some articles of clothing upon poles in the kitchen, when she fell, striking the back of her head upon the stove and killing her instantly. Her age was forty four years.—*Worcester spy.*

THE GREAT ENGLISH REMEDY

SIR JAMES CLARKE'S

Celebrated Female Pills,

Prepared from a prescription of Sir James Clarke M D Physician extraordinary to the Queen, etc. etc.

This invaluable medicine is confidently offered to the public as a certain and safe remedy for all those painful and dangerous complaints incident to the female constitution. It moderates all excess, removes all obstructions, and brings on the menses regularly. These Pills should be taken by females during the first three months of pregnancy, as they are sure to bring forward their monthly courses with safety, but should not be taken by females during the last three months, unless they are desirous of producing premature labor, as they are certain to bring on that event at the end of the seventh month. They are also an infallible remedy for all those painful complaints to which females are subject, at the change of life, whether arising from constitution, climate, or mode of living. Each box contains full directions for use.

The Tuckerman Case.

BOSTON, Jan. 3.

This afternoon, after about six hours deliberation, the jury on the case of Wm. S. Tuckerman, charged with defrauding the Eastern Railroad Corporation, rendered a verdict of guilty. Rufus Choate, Counsel for the Defendant, immediately filed a Bill of Exceptions on certain points of the trial, which will be argued before the final disposition of the case.—Tuckerman remains at large on bail. The present verdict was for appropriating $5000.—Numerous other indictments are pending against him.

Arrest for Forgeries.

John Ferris was before the Police Court today, charged with obtaining nearly $4000 from several Boston Banks in October last by forged checks. Mr. Ferris, who is quite a young man, has been travelling in Europe since the alleged forgeries, and returned in the Niagara, when he was promptly arrested. He was committed to answer.

Severe storm of snow and sleet this evening. Strong gale from the Northeast.

We learn that John D. Burgess of Providence, R. I., has been obliged to suspend.—His liabilities are said to be large, and his suspension is occasioned by heavy losses sustained in consequence of the rapid decline in sperm oil, in which he was interested. He had intimate business connections with Messrs. Sanford & Howland, of this city, whose failure has been announced. Other parties in this city, it is feared, will be obliged to suspend payment on account of the failure of Mr. Burgess.—*New Bedford Standard.*

A MAINE MAN KILLED IN CALIFORNIA.—Nathaniel Barstow, son of J. C. Barstow, Esq., of Litchfield in this County, met with sudden death on the fifth of November, at his home, Sibun, California. While engaged in hauling lumber he was thrown from his load—the wheels passing over his body causing almost instant death. The deceased was thirty-one years of age—left this State in 1849 for California. He leaves a wife and two children there.—*Kennebec Journal.*

RUMORED APPOINTMENT OF WARDEN OF THE STATE PRISON.—We understand that Colonel Edward W. Abbott, formerly Lieut. Colonel of the Massachusetts Volunteers in Mexico, has received the appointment of Warden of the State Prison, in place of S. H. Tenney, deceased. Col. Abbott is a young man of determined courage, energy, and prudence, and is entirely qualified for the position of Warden.—*Bolton Herald, Jan. 21.*

KILLING THEM OFF. The Administration has commenced the herculean task of decapitating all those appointees who neglected their duty so far as to vote for Col. Fremont.

Benjamin F. Crawford, Postmaster at Bryant's pond, has been succeeded by James H. Farnum.

At North Woodstock, J. M. Gallison has been removed, to make "an opening" for a Mr. Tetley, who has recently moved into town.—*Oxford Democrat.*

[From the New York Tribune.]

PLAGIARISM.—Some of our unsophisticated country friends complain of a class of public lecturers, who—unlike a popular city divine, who frankly says, "I lecture for F. A. M. E.—that is fifty and my expenses,"—are accustomed to turn up their respective nasal protuberances at the idea of being paid for their services, and yet feel abominably ill used if they are *not paid*, and pretty roundly paid too. A recent dialogue between an illustrious ex-Senator and the Chairman of a Lecture Committee, will illustrate the matter more clearly:

Chairman—Col. B., what shall we pay you for your lecture last evening?

Lecturer—Sir, I don't lecture for pay. I have a very different motive.

Chairman—Certainly; we fully understand that. But we cannot consent that you should come to us at your own cost. For what sum shall I fill up a check for your expenses?

Lecturer—You may make it two hundred dollars.—But I wish it distinctly understood that I don't lecture for *money*.

The general reader will be struck with the close resemblance—almost amounting to a plagiarism—between the above and a familiar colloquy in the "Pickwick Papers," which, for the benefit of the few who have not read "Pickwick," we subjoin.

"Wot's your usual tap, sir?" inquired Sam.

"Oh, my dear young friend," replied Mr. Stiggins, "*all taps is vanities*."

"Too true, too true, indeed," said Mrs. Weller, murmuring a groan, and shaking her head assentingly.

"Vell," said Sam, "I des-say they may be, sir, but vich is your partickler wanity? Vich wanity do you like the flavor on best, sir?"

"Oh, my dear young friend," replied Mr. Stiggins, "I despise them all. If," said Mr. Stiggins, "if there is any one of them less odious than another, it is the liquor called rum—warm, my dear young friend, with three lumps of sugar to the tumbler."

Holloway's Pills, the Best Remedy in the Union for Female Complaints.—These Pills are particularly recommended to the citizens of the Union for the extraordinary efficacy in female complaints, and they are alike valuable either to the daughter verging into womanhood, or the mother at the turn of life. It has been proved beyond all contradiction, that these celebrated Pills will cure all diseases to which females are peculiarly subject, and enable them to pass their climacteric periods of life without exposing themselves to those changes they too often incur by other treatment.

Wistar's Balsam of Wild Cherry.

Has established for itself a reputation that cannot be assailed. Dr. Wm. A. Shaw, of Washington, N. C., writes under date of May 1, as follows: "I have heard of many cases of decided beneficial effects from its use, especially in Asthma and Chronic Cough of spasmodic character. I have used the Wild Cherry a great deal in practice, and with marked good results."

"Every one knows the reputation of the Turpentine and Balsam constituents in preference to a tincture. The combination of these principles in WISTAR'S BALSAM OF WILD CHERRY, is ingenious and judicious."

"Medical men are justly distrustful of Patent Medicines in general, but candid trust, discriminate between outrageous nostrums and humbugs and those medicines which have proved salutary, and in many well-attested cases, curative."

None genuine unless signed I. BUTTS on the wrapper.

Rouse's Point, Clinton Co., N. Y.

Perry Davis—Sir—Although personally a stranger to you, yet the benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it, and gratitude to you, its inventor. I have tried a score of patent medicines, of various kinds, and consider the Pain Killer the very best of its kind in use. It is not a panacea for all the ills that flesh is heir to, but it is certainly a *grand specific* for many diseases. Two years experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, Severe Chills, Weariness, Common Colds, Hoarseness, Cholera, Cholera Morbus, Diarrhea, Dysentery, Toothache, &c., &c., *there is nothing better than the Pain Killer.* I have this week recovered from a severe attack of Sick Headache, by using two teaspoonfuls, taken at thirty minutes interval, in a wine glass of warm water. I am confident that, through the blessing of God, it saved me from cholera in the summer of 1849. Traveling in Connecticut and Massachusetts, amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy; one teaspoonful curing the worst case in an hour, or at most, in *a day*. My brothers in the ministry have used it with much success in various diseases. I have heard of many cases, the country over, of dysentery being cured by its use. Put in the teeth, it would stop the toothache in several minutes.

Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor. The Pain Killer is a blessing to mankind, and needs but to be known to be admired. May you be richly rewarded as its distinguished inventor.

Yours respectfully, with constant gratitude,

D. T. TAYLOR, Jr., Minister of the Gospel.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracked; but when this water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet, myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

BRIMFIELD, MASS., 20th Dec, 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE Co., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

OLD DR. CULVERWELL'S
(Member of the Roya College of Surgeons (1827,) Licentiate of the Hall (1824) and 33 years Medical Referee, &c.)
Radical Regenerator,
FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. CULVERWELL in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means it claims employed for the same purpose, not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.

Dr. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy, in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by mail, free of postage, to any part of the country. Address, Messrs. GREAT
American and Foreign Office
—FOR—
Securing Patents for Inventions.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,
No. 76 State Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice at the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,

PROFESSOR WOOD'S
HAIR RESTORATIVE.
It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

MILLFORD, Worcester Co., Mass., Nov. 1855.
PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches, and a half in length, and growing fast. Yours truly,
HENRY GOODRICH.

CHARLESTON, Mass., Aug. 10, 1855.
GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.
Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known Nurse in Boston.
BOSTON, Oct. 19, 1855.
GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become, quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown. Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:

BROOKFIELD, Mass., Jan. 12, 1855.
PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.
Yours truly,
J. K. BRAGG.

(From the Jersey City Telegraph.)
WHAT IS IT FOR?—This Wood's Hair Restorative?—is a question asked daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all it promises for the human hair. *It will renew its growth—it will stop its falling—it will restore its natural color!* It is not a hair dye, but a speedy and efficacious Restorative.

THE GREATEST
MEDICAL DISCOVERY
Of the Age!

Dr. KENNEDY, of Roxbury, has discovered in one of our common *pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR,
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day.—In April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1.00.
